

Report

1st SICCR-AIUG Inter-regional Joint meeting of central Italy

After a few difficulties at the beginning we finally realized the first SICCR-AIUG Joint Meeting. There were more than 120 participants, more than we had actually foreseen. I hope to have been a good host and to have repaid the trust placed in me by the Directive Council.

I would like to take the opportunity to thank all participants for the quality of their papers thanks to which, in terms of interest, we obtained a great

success, considering it was a Saturday and it lasted longer than expected.

We hope to be able to continue collaboration with AIUG and furthermore to improve it by showing a great engagement in the duties we have promised to carry out.

Marco Coccetta
