## FIRST INTERNATIONAL EFR MEETING IN VIENNA

Colorectal Cancer  
Final announcement

**Spring Meeting**

31<sup>st</sup> March – 2<sup>nd</sup> April, 2005

under the aegis of

Dr. Heinz Fischer  
Federal President of the Republic of Austria

Dear participants,

Austrian medicine enjoys an excellent reputation worldwide. It is therefore with great pleasure that I assume the patronage of the Spring Meeting of the **EFR-European Federation for coloRectal Cancer**. I am convinced that this exchange of experience and in particular the establishment of an international network for the treatment of colorectal cancer will result in significant improvements in the medical care for and the quality of life of patients afflicted with this disease. I am certain that an intensive study of the second most common form of cancer will benefit many people and therefore I wish the members of the Federation all the best for their deliberations at their congress in Vienna.

Béla Teleky, MD, F.R.C.S.  
President of the EFR

Dear friends,

On behalf of the **EFR**, it is my pleasure and privilege to welcome you to the first spring meeting in Vienna. The congress programme created focuses on new development in the multidisciplinary setting of colorectal cancer treatment – from diagnosis to state-of-the-art treatment approaches. Colorectal cancer is still the second-leading cause of cancer-related deaths in Europe

In addition to rectal cancer operations with live transmission into the auditorium there will be scientific presentations and various symposia rounding off the subject of colorectal cancer. Diagnosis to state of the art treatment approaches and symposia complete the scientific programme.

We are confident that this meeting will be offering new insights presenting itself as a platform for scientific exchange and discussion as well as giving space to getting to know each other and making friends, preparing the soil for fruitful scientific co-operation in the field of coloproctology.

Apart from the scientific schedule you will certainly have the opportunity to get a taste of Vienna's artistic and cultural richness and splendour – exciting concerts, impressive exhibitions, culinary delights. There's more to Vienna than meets the eye!

I look forward to spending some inspiring days with you.
